

LEGISLATIVE UPDATE

From Mike Morris...

May 18, 2020

All,

As anticipated, there were no other retirement related bills that passed during the final week of regular session. I anticipate a special session in the not too distant future to deal with additional federal covid funding. I will let you know what I pick up on that front.

As always, you can see what happened to all of the retirement related issues at JCPER.org under the legislation tab.

Mike Morris
