

LEGISLATIVE UPDATE

From Mike Morris...

February 7, 2020

All,

This was a very quiet week for retirement and pension issues. The legislature basically adjourned Wednesday and went home for the week due to the snow forecast. The House Pensions Committee hearing was cancelled and moved to next week. The only issue is an executive session to vote out the MPERS and MOSERS clean-up bill.

So far there have been no retirement bills assigned to the Senate Health and Pensions Committee. I would think they will be in the next week or two.

You can view all pension related bills at JCPER.org under the legislative information tab.
